

## HOW TO USE

Efficacy of Vitamin C is optimised when it is fresh. To benefit from its full power, it is stored separately in a special canister, protecting it from air and light.

- 1 Press the special canister to release Fresh Vitamin C

- 2 Remove the lid and screw on the dropper

- 3 Shake 10sec to mix Vitamin C

## POSOLOGY

### AS A RELAY OF TREATMENT

3 months until starting the next dermatological treatment

### AS A MONOTHERAPY

Cure of 1 month at least

### DAILY NIGHT USE

- Apply 5 drops every evening to face and neck cleansed.
- A very high photoprotection is recommended during the day: Pigmentbio Daily Care SPF50+.
