# INTENSIVE PRO-COLLAGEN +

TARGETING SKIN'S NATURAL  
TIGHTENING MECHANISMS

---

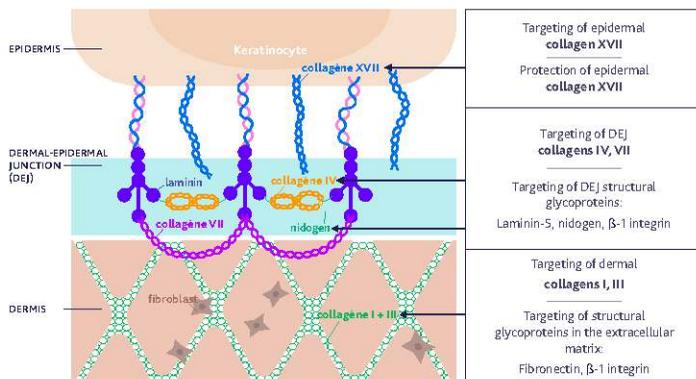

Targeting 5 natural collagens  
present in the skin.

---

# FIRMNESS: A PROCESS INVOLVING SEVERAL COLLAGENS TYPES

## PRO-COLL + TECHNOLOGY

An ecobiological approach: acting on the causes of loss of firmness with biomimetic peptides that target 5 essential collagens naturally present in the skin.

Ingredients: Palmitoyl tripeptide-1, Palmitoyl tripeptide-7, Xylase, Hexapeptide-9, Acetyl tetrapeptide-9 + Cellular Water technology

## MULTI-LEVEL ACTION ON ALL SKIN LAYERS FOR OVERALL RESULTS ON SKIN FIRMNESS

# INTENSIVE PRO-COLLAGEN+ SERUM

## TARGETING THE FACIAL CONTOUR'S BIOLOGICAL TIGHTENING MECHANISMS

30 ML BOTTLE

### INDICATIONS

Skin sagging.  
All skin types.

### GALENIC FORM

Fast absorbing, fresh, transparent aqueous gel.  
Immediate tightening effect.

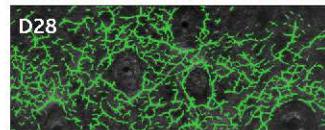

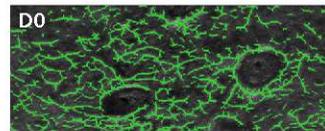

### INSTRUCTIONS FOR USE

Apply morning and evening to face and neck.  
Alone or in addition to INTENSIVE PRO-COLLAGEN+ cream.

## ECOBIOLOGICAL CLINICAL EFFICACY

### MICRO-RELIEF RESTRUCTURING IMPROVES SKIN FIRMNESS

+14%<sup>3</sup> DIRECTIONAL REORGANIZATION OF FIBERS AFTER 1 MONTH

A more organized dermal network promotes optimal structure and tightening.

Improvement in dermal fiber network organization observed with confocal microscopy on the cheekbone after just 28 days of twice-daily application of INTENSIVE PRO-COLLAGEN+ Serum.

### CLINICAL EFFICACY AT D56

**+26%** FIRMNESS<sup>1</sup>

**+20%** TIGHTENING EFFECT<sup>2</sup>

**-9%** FACIAL CONTOUR PTOSIS<sup>2</sup>

Use test under dermatological supervision. <sup>1</sup> Instrumental evaluation, 31 subjects, aged 45-70, twice-daily application for 56 days. <sup>2</sup> Clinical scoring, 31 subjects, aged 45-70, twice-daily application for 56 days. <sup>3</sup> Instrumental evaluation, 29 subjects, aged 46-70, twice-daily application for 28 days.

# INTENSIVE PRO-COLLAGEN+ CREAM

TARGET THE SKIN'S NATURAL  
FIRMING MECHANISM

50 ML  
JAR

## INDICATIONS

Skin sagging.  
All skin types.
